

## Part 1 assignment 3 csci1170-----

A)

a) code snippet-

```
50
51 <form action="">
52   Name: <input type="text" name="name" id="name">
53   Email: <input type="email" name="email">
54   Country: <input type="text" name="country">
55 </form>
56 </div>
57
```

b) current outcome-

A screenshot of a web browser showing a form with three input fields: 'Name:', 'Email:', and 'Country:'. A small white popup window titled 'Saved data' is open, showing the text 'bhjknknj'. The form fields are currently empty.

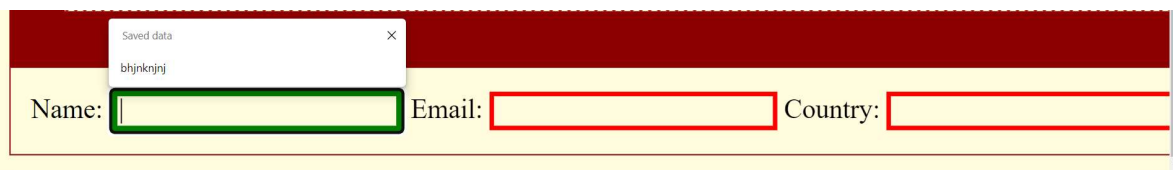

c)desired outcome—

I want the form to look more attractive when the user is filling it. So I used the blur and focus event handling.

d)code snippet that would fix the problem-

```
1 let inputs = document.querySelectorAll("input");
2
3 for (let i = 0; i < inputs.length; i++) {
4   let input = inputs[i];
5   input.style.border = "1px solid red";
6   input.addEventListener("focus", function() {
7     this.style.border = "5px solid green";
8   });
9   input.addEventListener("blur", function() {
10    this.style.border = "3px solid red";
11  });
12 }
```

e) New outcome –

A screenshot of the same web form as before, but now the input fields have colored borders. The 'Name:' field has a green border, the 'Email:' field has a red border, and the 'Country:' field has a red border. The 'Saved data' popup is still present.

B)

a) Code snippet-

```
30
31 <h1 id="blog-1">WHAT IS ART?</h1> <!--blog 1-->
32
33 <p>
34   Art ,according to me, is not limited to just drawing and painting stuffs. Its
35   that maybe even hunting you onto something. Art is a story in colorful way
```

b)current outcome-

## BLOGS

### WHAT IS ART?

Art ,according to me, is not limited to just drawing and painting stuffs. Its about expressing yourself and anchoring your energy from within that maybe even hurting you onto something . Art is a story in colorful way . Art is spreading happiness .

c)desired outcome-

I want to make it easier for the users to know what blog they are reading . so when they hover over the heading of the blog they want to read , it gets highlighted and it is easier to keep track of the blog they are reading among many other blogs.

d)code snippet to fix it-

```
13  
14 let mouseOver = document.getElementById("blog-1");  
15  
16 mouseOver.addEventListener("mouseover",function(){  
17     this.style.background="yellow";  
18 })
```

e) new outcome-

### WHAT IS ART?

Art ,according to me, is not limited to just drawing and painting stuffs. Its about expressing yourself and anchoring your energy from within that maybe even hurting you onto something . Art is a story in colorful way . Art is spreading happiness .
